

Admission Interview

An admission interview is required for all applicants to the medical and/or health related programs i.e. programs offered by the Faculties of Pharmacy, Medicine, Dentistry and Health Sciences.

The interview may include questions related to:

- Personal attributes
- Motivation
- General knowledge
- Career oriented goals
- Behavior based issues

If you are applying to more than one medical or health related program, you are required to choose the interview set by the faculty of your first choice. Yet, the result of this interview will be counted for all other choices (if any).
