

Databases	Description
<u>AccessMedicine</u>	Is an innovative online resource that provides students, residents, clinicians, researchers, and all health professionals with access to more than 60 medical titles from the best minds in medicine, updated content, thousands of images and illustrations, interactive self-assessment, case files, diagnostic tools, a comprehensive search platform, and the ability to view from and download content.
<u>CINAHL Plus with Full Text</u>	It is an expanded version of the original CINAHL database. It provides authoritative coverage of the literature related to Nursing and Allied Health. It includes the full text for more than 560 journals.
<u>DynaMed</u>	A clinical reference tool created by physicians for physicians and other health care professionals for use at the point-of-care. It provides the latest content and resources with validity, relevance and convenience.
<u>e-Books</u>	The collection includes reference Books, scholarly monographs, publications of many university presses, and consumer Books that have been converted into digital format.
<u>Rehabilitation Reference Center™</u>	Includes nearly 550 Clinical Reviews, more than 150 research instruments, information from AHFS on over 11,700 drugs and their manufacturers, more than 9,800 exercise images, key reference handbooks, guidelines from the National Guideline Clearinghouse, more than 1,500 relevant patient education topics.
<u>JCI (The Journal of Clinical Investigation)</u>	An honor society of physician-scientists, those who translate findings in The laboratory to The advancement of Clinical practice.
